EDUBRIDGE INDIA PRIVATE LIMITED

2021-2022.

ACKNOWLEDGEMENT

It gives all of us great pleasure in presenting the preliminary project report on “Our Mill”. With due respect and gratitude we would like to take this opportunity to thank internal guide of our project Mrs.Amruta Deore for giving us all the help and guidance we needed. We are really grateful for this kind support. She has always encouraged us and given us the motivation to move ahead. She has put in a lot of time and effort in this project along with us and given us a lot of confidence. Also we wish to thank all the other people who have helped us in the successful completion of this project.

Miss. Hari Priya V

ABSTRACT

Our mill will be helpful to all the customer's who prefer fresh milled products, where customer's will be provided with 100% pure product's where no chemicals are mixed. Raw materials are direct from the farm before grinding grains are cleaned i.e., removal of impurities by separators, screening machines, magnetic devices, grain conditioning with the help of water and heat, blending grains before milling. So the customer's have not struggle to grind powder's and flour's, ready-made flour's and powder's are available with reasonable price and good quality.

Chapter 1

INTRODUCTION

1.1 INTRODUCTION

The objective of Our Mill is to allow the administrator of organization to edit and find out the details of any product's and to update new product's. It also facilitates keeping all the records of products, such as name, price and quantity. So all the details of product's will be available for the customer's to order product's.

1.2 System Requirements

1.2.1 Software Requirements

1. Operating System - Windows 10.
2. Platform – Notepad++.
3. Language – HTML, CSS, JavaScript.

1.3 MODULE

1.3.1 Login

Login module will help in authentication of user accounts. Users who have valid login id and password can only login into their respective accounts.

```
<html>
<head>
<title>Login Form</title>
<style>
body{
background-image:url('flour1.jpg');
background-repeat: no-repeat;
background-attachment:fixed;
background-size: cover;
color:black;
font-size:20px;
margin-left:600px;
margin-top:200px;
}
.b1{
background-color:black;
border: 5px black solid;
border-radius : 7px;
color: white;
}
```

```

</style>
</head>
<script>
function validateregister(){
var password=document.myform.password.value;
var phonenumber=document.myform.phonenumber.value;

if(password.length<6){
alert("Password must be atleast 6 characters long.");
return false;
}
else if(phonenumber.length!=10){
alert("Phone number must be 10digits");
return false;
}
}
</script>
<body>
<form name="myform" method="post"
action="file:///G:/edubridge/Webproject/Hp.html" onsubmit="return validateregister()">
<h1> Login!!!</h1>
<b>Phone Number:</b>
<input type="text" name="phonenumber"><br><br>
<b>Password:</b>
<input type="password" name="password"><br><br>
<input class="b1" type="submit" value="Login">
</form>
</body>
</html>

```

1.3.2 Registration

This module will help the customer get registered from anywhere if internet is present .This module will really simplify the task of on paper registration. Also after successful registration the user can update information and change their password as and when required.

```

<html>

<script>

function validateregister(){

var name=document.myform.name.value;

var password=document.myform.password.value;

var phonenumber=document.myform.phonenumber.value;

var address=document.myform.address.value;

if(name==null|| name==""){

alert("Name can't be blank");

```

```

return false;
}else if(address == null || address == ""){
    alert("Address can't be blank");
return false;
}
else if(phonenum.length!=10){
alert("Phone number must be 10digits");
return false;
}else if(password.length<6){
alert("Password must be atleast 6 characters long.");
    return false;
}
localStorage.setItem("Regname",name);
localStorage.setItem("Regpassword",password);
localStorage.setItem("Regphonenum",phonenum);
localStorage.setItem("Regaddress",address);
}
</script>
<body>
<form name="myform" method="post"
    action="file:///G:/edubridge/Webproject/registration%
    20successfull.html" onsubmit="return
    validateregister()">
<h1> Register!!!</h1>
<b>Name:</b>
<input type="text" name="name"><br/><br/>
<b>Address:</b>
<textarea rows="2" cols="30"
    name="address"></textarea><br><br>
<b>Phone Number:</b>
<input type="text" name="phonenum"><br><br>
<b>Password:</b>
<input type="password" name="password"><br><br>
<input class="b1" type="submit" value="Register">

```

```
</form>
</body>
</html>
```

PROJECT IMPLEMENTATION

2.1 SCREEN

Login page

The screenshot shows a web browser window with two tabs: 'Login Form' and 'Our Mill'. The address bar displays 'G:/edubridge/Webproject/Login.html'. The page features a background image of a burlap sack filled with white flour, with several stalks of wheat in the foreground. The text 'Login!!!' is centered on the page. Below it, there are two input fields: 'Phone Number:' with the value '1234567890' and 'Password:' with a masked value '.....'. A black 'Login' button is positioned below the password field. The Windows taskbar at the bottom shows the search bar, task view, and various application icons, along with system icons for temperature, network, and time (23:10 on 05-09-2021).

2.2 SCREEN

Registration page

The screenshot shows a web browser window with two tabs: 'Registration Form' and 'Our Mill'. The address bar displays 'G:/edubridge/Webproject/Register.html'. The page features the same background image of a burlap sack filled with white flour and wheat stalks as the login page. The text 'Register!!!' is centered on the page. Below it, there are four input fields: 'Name:' with the value 'Hari', 'Address:' with the value '#412, 2nd cross, 2nd street, Hebbal, Bangalore-43', 'Phone Number:' with the value '1234567890', and 'Password:' with a masked value '.....'. A black 'Register' button is positioned below the password field. The Windows taskbar at the bottom shows the search bar, task view, and various application icons, along with system icons for temperature, network, and time (23:10 on 05-09-2021).
